

REVOLUTIONÄRE FORMULIERUNG AUF WASSERBASIS

Durch die Formulierung auf Wasserbasis hat Liquitex Professional Acrylspray den einzigartigen Vorteil, dass es nur einen geringen Geruch hat und keine Warnhinweise für Haut- oder Augenreizend benötigt, wie sie bei anderen Acrylsprays häufig zu finden sind. Da die Farbe zudem im feuchten Zustand mit Wasser abgewaschen werden kann (nach dem Trocknen ist die Farbe wasserfest) ist sie ideal für die Verwendung im Innenbereich und in Bildungseinrichtungen geeignet.

EIN UMFASSENDES FARBSYSTEM

Entdecken Sie das umfangreiche Farbspektrum mit 100 Farben, das neben deckenden auch transparente, irisierende und fluoreszierende Farbtöne enthält. 50 Farben sind exakt auf das Sortiment der Liquitex Heavy Body Acrylfarben abgestimmt und zusätzliche Farbnancen bieten eine umfangreiche Farbauswahl.

Um Gegensatz zu traditionellen Acrylfarben, die gemischt werden können, um eine gewünschte Farbschattierung zu erreichen, werden die Sprayfarben normalerweise pur direkt auf den Untergrund aufgesprüht. Daher wurden ausgewählten Farben des Sortiments Schwarz und Weiß hinzugefügt, um ein vollständiges tonales Farbspektrum zu erhalten.

Die Skala auf der Rückseite jeder Dose zeigt die Anordnung jeder Farbe innerhalb dieses Spektrums.

COBALT BLUE HUE
BLEU DE COBALT (IMIT.) 3
TONO AZUL DE COBALTO

Eine reine Liquitex Farbe fällt in die Mitte der Skala.

COBALT BLUE HUE 3
BLEU DE COBALT (IMIT.) 3
TONO AZUL DE COBALTO 3

1-4 kennzeichnet einen Farbton dem Schwarz hinzugefügt wurde, um eine dunklere Tönung der reinen Liquitex Farbe zu erhalten.

COBALT BLUE HUE 6
BLEU DE COBALT (IMIT.) 6
TONO AZUL DE COBALTO 6

5-8 kennzeichnet einen Farbton dem Weiß hinzugefügt wurde, um eine hellere Tönung der reinen Liquitex Farbe zu erhalten.
